Number System Examples with SimBraille

1. The set of natural numbers is written
   \( \mathbb{N} \)
   \( \cdots \)

2. The set of whole numbers is written
   \( \mathbb{W} \)
   \( \cdots \)

3. The set of integers is written
   \( \mathbb{Z} \)
   \( \cdots \)

4. The set of rational numbers is written
   \( \mathbb{Q} \)
   \( \cdots \)

5. The set of real numbers is written
   \( \mathbb{R} \)
   \( \cdots \)

6. The set of complex numbers is written
   \( \mathbb{C} \)
   \( \cdots \)

7. The set of pure imaginary numbers is written
   \( \mathbb{I} \)
   \( \cdots \)
