

Interpreting Greater Than on Number Lines

Matching Game

Match the inequalities below to each of the inequalities graphed on the remaining pages to make a phrase. In a new document, braille the letter/symbol that goes with the answer to each problem. Letters may be used more than once. For problems that say "space", press the space bar.

Note: Students should not use the grade 1 symbol indicator or punctuation indicator when writing their answer since they will be creating a phrase in uncontracted braille.

Letter/symbol	Inequality
o	$x > -2$
y	$x > 10$
w	$x \geq -2$
!	$x \geq 700$
t	$x > 1$
a	$x \geq -1$
g	$x \geq 10$
