

## Simple Fractions with a Diagonal Fraction Line Activity

Write the following simple fractions using a diagonal fraction line where the numerator is raised higher than the denominator. Also, number each problem.

1.  $\frac{1}{4}$  one-fourth

Answer: 

2.  $\frac{3}{7}$  three-sevenths

Answer: 

3.  $\frac{69}{100}$  sixty-nine hundredths

Answer: 

4.  $\frac{2}{x}$  open fraction two over x close fraction

Answer: 

5.  $\frac{y}{z}$  open fraction y over z close fraction

Answer: 

Write the following simple fractions using a diagonal fraction line where the numerator is not raised higher than the denominator. Also number each problem.

6.  $\frac{1}{4}$  one-fourth

Answer: 

7.  $\frac{3}{7}$  three-sevenths

Answer: 

8.  $\frac{69}{100}$  sixty-nine hundredths

Answer: 

9.  $\frac{2}{x}$  open fraction two over x close fraction

Answer: 

10.  $y/z$  open fraction y over z close fraction

Answer:
